

Discover E for budding engineers

February 1, 2013

As part of the annual Discover E event, the wide variety of careers available in engineering is the focus of activities on Thursday, Feb. 21 from 4:30 p.m. to 7 p.m. in the Los Alamos High School Commons Area. The event coincides with National Engineers Week and is free with no registration required. Boy and Girl Scouts can even use the activities to help earn merit badges.

Last year's event attracted more than 400 students and adults with 40 different displays.

This year's event is co-sponsored by the Los Alamos Chapter of ASM International, the Northern New Mexico Chapter of American Society of Mechanical Engineers, Los Alamos Middle School 8th Grade GATE Science organization and is supported by a variety of groups at Los Alamos National Laboratory.
